

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION VII
901 N. 5TH STREET
KANSAS CITY, KANSAS 66101

JUN 06 2001

The Honorable William Lacy Clay
U.S. House of Representatives
Washington, D.C. 20515

Dear Mr. Clay:

Thank you for your recent inquiry about EPA projects in your district. Your inquiry listed 28 sites and you asked that we provide the nature of the problem and the status of the cleanup.

My staff is working on your request and will have a response to you in a short time. However, since some of these sites are no longer active, the records are not as readily available. We should have your reply in a matter of a few weeks. Thank you for your patience.

If you have questions or if we may be of additional service, please contact Jan Lambert, EPA Congressional Liaison, at (913) 551-7003.

Sincerely,

Karen A. Flourney
Director
Office of External Programs.

NOTE

Jan,

Congressman Clay received the following list of EPA projects in the First Congressional District from a constituent during a recent meeting. He would appreciate any help your office might provide in determining the nature of the problem and the status of the clean-up at these sites. Ultimately, he is interested in facilitating timely remediations.

Thank you for your help. Please call me with any questions. 202-225-2409

Michele

**Sites In US Congressional District 1
At Which Hazardous Contaminants Remain**
